

DCET and Focus Training

Stephen Baker Operations Manager at DCET contacted us last year and implemented our service. Stephen says of our work together:-

DCET and Focus Training have recently been working with DTD Training to update some of our health and safety practices and procedures. After talking to Tudor we quickly became aware that the only thing we have done for some of our processes was to change the title from LSC to SFA! These processes were often outdated and didn't meet the latest requirements, others were too onerous and consequently time consuming.

We worked together with Tudor, updated policies, streamlined employer health and safety assessment and monitoring and set up an audit procedure. This not only makes us and our stakeholders safer, it also satisfies SFA and HSE requirements and shows our commitment to health and safety to external bodies including Ofsted.

Thank you Tudor.
